# Anton Trstenjak Institute of Gerontology and Intergenerational Relations

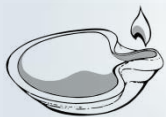

... is the national scientific and expert institution.

... was founded by few experts as private individuals in 1992, and later cofounded by the Slovenian Academy of Sciences and Art and the Government of the Republic of Slovenia.

... work is interdisciplinary and includes social and medical sciences.

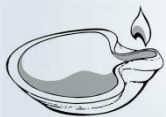

... has quite early became aware the seriousness of demographic changes in Slovenia and therefore carried out studies, developed and implemented new social programmes in this field.

**The main focus is given to the development of new programmes for quality ageing and good intergenerational relations.**

# Start-up in 2008 in the capital Ljubljana
