### ADDRESSING INEQUALITIES

Often neglected and minimized is the role that inequality and an individual's identity has in impacting the ageing process. It is time to address the experiences of older LGBTQI (lesbian, gay, bisexual, transgender, queer and intersex) people and draw attention to the role that life experience has on their health, their ability to meet basic needs, and their opportunity to thrive. Discuss topics like these and others at the #IFAConf2021 in Canada.

### LGBTQI AGEING INSTITUTE: NOV. 10

#### *Taking Care of Our Own and Building an Inclusive Future Together*

As part of #IFAConf2021, IFA, SAGE USA and Egale Canada are organizing an LGBTQI Ageing Institute that is a day filled with workshops, panels, and networking events, all focused on improving the lives of LGBTQI older people. To celebrate our shared accomplishments, we will conclude the day with an intergenerational dance party. Join us to:

- Connect with one another
- Share resources, programs and practices that work in our communities
- Form a peer network
- Co-create a vision for a future where LGBTQI people of all ages are affirmed and welcomed
